Press Release: **2013 WINTER WEATHER AWARENESS DAY**

From: Chad Omitt  
Warning Coordination Meteorologist  
National Weather Service Topeka, KS

**Winter Weather Awareness Day** for Northeast Kansas will be **Friday November 22, 2013**. The National Weather Service selects one day each fall to remind Kansans of the potential hazards associated with winter weather. Many people are often caught unprepared for the onset of snow, ice, and cold weather of winter. Knowledge and preparation are essential to minimizing these hazards.

Additional winter weather preparedness and safety information has been posted to the website for the National Weather Service in Topeka. This website is a comprehensive resource for winter weather information. Please use the information contained here and on the website for newspaper articles, interviews and presentations related to winter weather safety.

The URL address is: [www.weather.gov/topeka](http://www.weather.gov/topeka)

The 2013 – 2014 winter outlook from NOAA's Climate Prediction Center can be found below. Use the web site all winter long as a source for information including forecasts, watches, warnings and advisories for each county in North Central, Northeast and East Central Kansas.

For more winter weather information or for interviews, please contact the National Weather Service in Topeka on our **unlisted media-only telephone number at (785) 232-0814**. Meteorologists and staff are available 24 hours a day, seven days a week.

By promoting Kansas Winter Weather Awareness Day 2013, we hope to remind the public of ways to reduce the hazards associated with winter weather. Thank you for your help in this effort.
